

Pages: User & API [tabs: user form and Api call], Caluculator

Screenshots:

The screenshot shows a web browser window with the address bar displaying `http://localhost:4200/userform`. The browser's tab bar shows 'AU'21', 'User & API', and 'Calculator'. The page has two tabs: 'UserForm' (active) and 'ApiCall'. The 'User Data Form' contains the following fields:

- First Name:
- Last Name:
- Email address:
- Mobile:
- Date of Birth:

Below the form are 'Save' and 'Clear' buttons. At the bottom, there are two dropdown menus: 'Sort By' (set to 'Email') and 'Sort As' (set to 'Descending'). Below these is a table with the following data:

FirstName	LastName	Email	Mobile	Date of Birth
rajesh	kumat	raj@mail.com	9283928392	24 Jan 2021
kalai	m	kalaichelvan294@gmail.com	9489413893	09 Jan 2021

The screenshot shows the same web browser window, but the 'ApiCall' tab is active. The page title is 'Api get Data'. It displays a table with 10 rows of data:

Id	Title	completed
1	delectus aut autem	false
2	quis ut nam facilis et officia qui	false
3	fugiat veniam minus	false
4	et porro tempora	true
5	laboriosam mollitia et enim quasi adipisci quia provident illum	false
6	qui ullam ratione quibusdam voluptatem quia omnis	false
7	illo expedita consequatur quia in	false
8	quo adipisci enim quam ut ab	true
9	molestiae perspiciatis ipsa	false
10	illo est ratione doloremque quia maiores aut	true
